

## KIMBER's UPDATE - DECEMBER 2025

I've recently returned from one of our Central Asia transmitter sites. Give thanks for safe journeys, and for easy passages through airport customs while carrying tools and spare parts. During the day we carried out repairs and maintenance on the transmitters. In the evening the same transmitters were used to broadcast Christian programmes into neighbouring countries. We sometimes stayed for the first part of the evening's transmissions to make sure the equipment was functioning well.

Some of those evening broadcasts were directed into India. A listener from India sent us this encouraging message: (the picture is not the listener or his family)

*"I came from a different religious background. My parents were very devout followers. They worked in agriculture and they sent us to school. My family had a lot of issues and life was full of darkness. However, with the arrival of the radio, we listened alongside our loved ones, learning about the true nature of God and the identity of Jesus Christ. My parents also accepted Jesus Christ as their personal saviour after I did. We are now really happy, and I am grateful to God for saving my family and me. Many thanks to the radio ministry."*

During the first part of 2026, I've been asked to make a visit to our West Africa transmitter site and our Swaziland transmitter site. Dates have not been confirmed yet. Please pray for safe and productive visits.

### Family news:

Jessica has a few university interviews coming up over the next three weeks. Please pray she won't be too nervous.

Bernice is working in a care home one day a week as part of her T-level in Health.

Give thanks that Jean's ILR (permanent UK residency) was approved last week. She is now allowed to live in UK permanently without having to apply for any more visas.

Thank you very much for your prayers,

**Graham & Jean**
